

VELA RAPID

Hydraulic, automatic barrier.
Fast and reliable

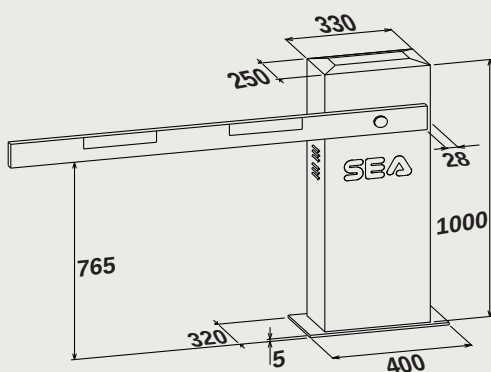

- Fast and hydraulic automatic barrier for accesses up to 3 meters.
- SEA TOTAL QUALITY: All main parts are manufactured and tested in-house.
- It is realized through an hydraulic set and with an extremely powerful motor which is able to guarantee continuous cycles of use and high reliability.
- Hydraulic slow down in opening and closing.
- Automatic electric fan device for cooling in case of continuous use.
- Anti-crushing safety system through force adjusting by-pass valves.
- Automatic closing.
- Easy release system with key in case of power failure.
- Mechanical limit switches.
- Steel casing processed with cataphoresis and painted with polyester for long time resistance.
- INOX steel casing available.

HYDRAULIC BARRIER FOR CONTINUOUS
FREQUENCY OF USE FOR BEAMS UP TO 3 METERS.

VELA RAPID PACKAGE

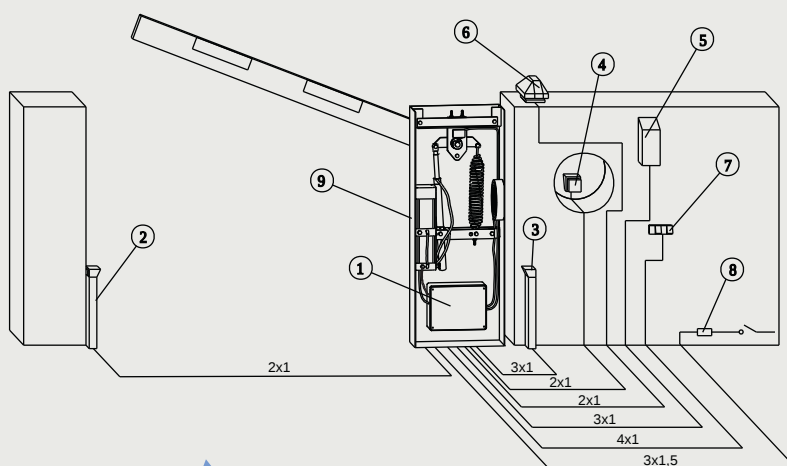

- N.1 VELA RAPID operator
- N.1 VELA FAST control unit + SIGNAL 433MHz receiver
- N.1 Balancing spring
- N.1 Accessories kit for installation
- N.1 Key release
- N.1 Instructions for installation and general notice
- N.1 Warning plate

Dimensions (mm)

NAME	OPENING TIME	MAX BEAM LENGTH	PUMP	FREQ. OF USE
VELA RAPID Right Side	1,5 sec.	2,0 mt.	2,0 lt.	100%
VELA RAPID Left Side	1,5 sec.	2,0 mt.	2,0 lt.	100%
VELA RAPID Right Side	2,0 sec.	2,5 mt.	2,0 lt.	100%
VELA RAPID Left Side	2,0 sec.	2,5 mt.	2,0 lt.	100%
VELA RAPID Right Side	2,5 sec.	3,0 mt.	2,0 lt.	100%
VELA RAPID Left Side	2,5 sec.	3,0 mt.	2,0 lt.	100%

Notice: To choose left or right: the Vela operator is considered right-hinged if, when looking at the casing door accessing the motor, the beam is on the right; if the beam is on the left the operator is considered left-hinged.

STANDARD INSTALLATION

- 1- ELECTRONIC UNIT
- 2- TRANSMITTER PHOTOCELL
- 3- RECEIVER PHOTOCELL
- 4- KEY PUSH BUTTON
- 5- RADIO RECEIVER
- 6- FLASHING LAMP
- 7- INNER PUSH BUTTON BOARD
- 8- DIFFERENTIAL SWITCH
- 9- VELA RAPID OPERATOR
