KRV78

Flush mount hands free videomonitor using 3.5" full colour active matrix LCD display with OSD (On Screen Display) for video door entry systems using composite (coax cable) or balanced (twisted pair) video signal. All buttons use capacitive touch sensor technology, 3 of these buttons have multiple direct functions such as "door-open/concierge-call", "answer/camera recall/simplex conversation" and "privacy/call reject/service/programming and adjustment menu access". 3 LEDs give visual indication of operations while the other 5 buttons allow navigation of the programming menu's. Programmable options: loudspeaker volume, call tone volume, picture contrast, brightness and hue, privacy duration, call tone melody, number of rings, address and video mode. Also includes a local bell function. Available in black (add to the product code "/B") or white (add to the product code "/W") finishes.

KRV76

As Art.KRV78 but surface mount version with telephone handset.
