Application

The TTR-07 tripod turnstile is a reliable compact solution featuring automatic anti-panic folding arms.

At a power loss, by a signal from an ACS or an emergency button the barrier arm blocking the passage automatically falls down leaving the passage free. When the power is restored to bring back the folded arm into operating position (blocking the passage) just lift it manually.

Delivery set

- turnstile with built-in electronics
- remote control panel
- automatic anti-panic barrier arms

Design

With its compact design the TTR-07 can be applied at entrance points of various configurations, especially where lack of space is an issue. The turnstile can be fitted with PERCo railings to complete your entrance hall.
