

# ZAL005

*Power supply 3V, long lasting CR2032 lithium battery.*

*B.RO OVER are refined, ultra thin and highly technological transmitter.*

*Transmitter ideal for the use of PRAL thanks to the hole present on the back for a fast programming*

## Caratteristiche tecniche / Technical features

|                                         |                                 |
|-----------------------------------------|---------------------------------|
| Frequenza / Frequency                   | 433.92 MHz                      |
| Portata / Range                         | 80 m                            |
| Codifica / Coding                       | Codice variabile / Rolling code |
| Alimentazione / Power supply            | 3 Vdc                           |
| Assorbimento medio / Average absorption | 10 mA                           |
| Dimensioni / Dimensions                 | 33 x 65 x 10                    |

Led di segnalazione trasmissione  
*Led signaling the transmission*

3 canali / 3 channels

Tasto nascosto per l'inserimento a distanza  
dei successivi trasmettitori  
*Hidden key for the learning at distance  
of following transmitters*

E3-laan 93 9800 Deinze (België)
