

WALK THROUGH METAL DETECTOR 'MET4330'

33 ZONES

nestor
company

FEATURES

- 33 detection zones
- 7" LCD HD display interface
- Remote control
- Simple installation and use
- Excellent interference immunity and stability
- Each zone has 300 adjustable sensitivity levels
- Supports various language interface customization
- High accuracy and verification speed

APPLICATIONS

Exhibition Center

Bank

Government Offices

Prison

Electronic Factory

Hotel

Input voltage	100-240V, 50/60 Hz
Working temperature	-20°C - 50°C
External dimensions (mm)	2220 (H) x 930 (W) x 760 (D)
Channel dimensions (mm)	2010 (H) x 760 (W) x 760 (D)
Package dimensions (mm)	2300 (H) x 335 (W) x 800 (D)
Gross weight	70 kg

WALK THROUGH METAL DETECTOR 'MET4330'

ADVANCED STRUCTURE

- MET4330 has a beam structure and a modular, hidden wiring design. This design is not only convenient for installation, maintenance and logistics, but also enables an increased security level.
- Advanced robust and washable panels.
- High durability, anti-wearing and weather-proof structure.
- This display is mounted to a stainless steel bracket. The viewing angle is adjustable to avoid light reflection and improve readability. In addition, the brightness of the back-light can be adjusted by the program to make the interface clearer.
- It uses a 15V low voltage adapter to guarantee the safety of the user. The switch is equipped with an indicator light of power supply status. In addition, we also provide 4 and 8 hour backup batteries as an option.
- A signal cable connector is delivered with the device. You can connect the signal cable between a turnstile and the metal detector.

OPTIONAL ITEMS

- Transparent rainproof canopy against rain and dust
- Universal wheel
- Customize WIFI networking

Metal bracket

Power supply and linkage interface

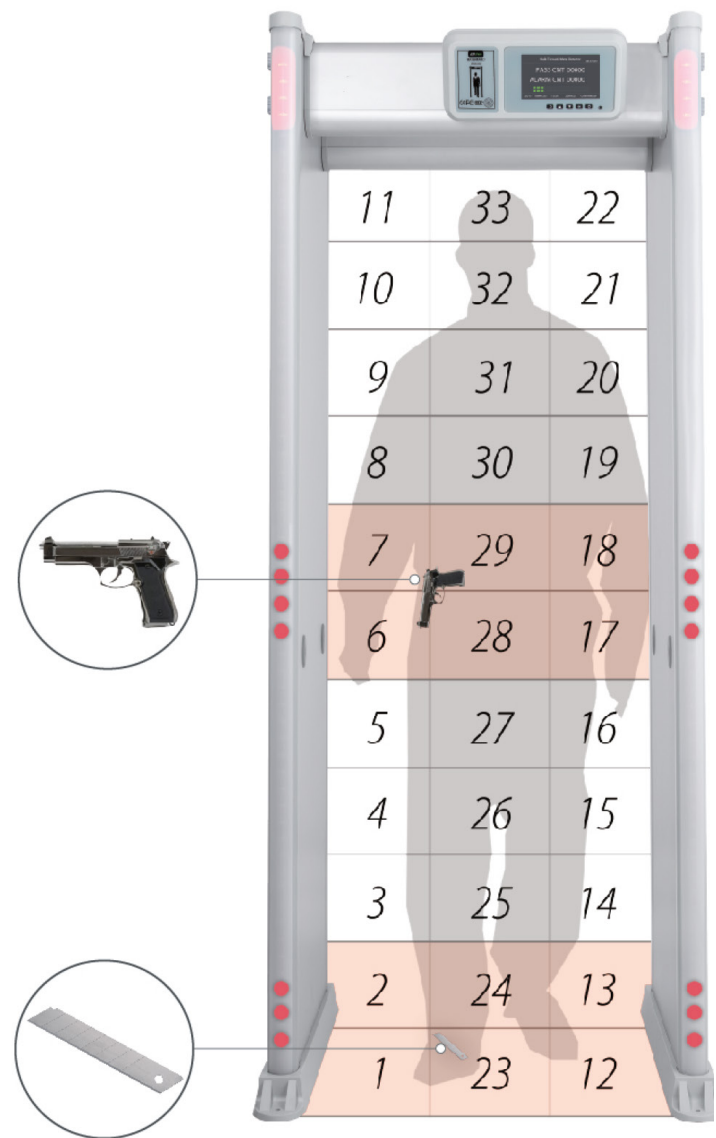

Universal wheel

Upgraded detection : make your environment safe 'MET4330'

DETECTION AREA

- MET4330 supports multiple detection zone modes, including the modes of a single detection zone, 6 detection zones, 11 detection zones and 33 detection zones.
- Adjustable sensitivity levels per zone and overall, adjustable sensitivity levels of anti-shock
- From the shoe level to the top, it accurately detects multiple metal objects simultaneously.
- Both sides of the metal detector have a LED light bar, clearly indicating where the detected object is positioned.
Depending on the size and shape of the metal, different alarm intensities are displayed on the control panel.
- Accurate detection of metal weapons, while filtering watches, coins, belts, buttons and other harmless items.
- Harmless to human body, heart pacemaker, pregnant women, magnetic floppy disk, recording tapes ...

▲ Detection area

MAIN INTERFACE

- 1 Precision passenger counting and alarm counting
- 2 Alarm intensity indicator
- 3 Real-time display
- 4 Detection zone setup
- 5 Channel setting

WALK THROUGH METAL DETECTOR 'MET4330'

MENU

SENSITIVITY

0-300 adjustable sensitivity levels per zone and overall,
0-255 adjustable sensitivity levels of anti-shock

ALARM

0-9s audio alarm duration setting, 0-95s LED alarm delay,
0-20 alarm volume, 16 alarm tones

LOCATION

30 application spots quickly setup

LANGUAGE

English, other languages can be customized

TIME

Manual correction time

PASSWORD

Enter the old password to set a new password

ZONE

Single zone, 6 zones, 11 zones, and 33 zones to set up

DIAGNOSIS

Fault fast detection, easier to find faults and facilitate
maintenance
