

CVR4KV SERIES VIDEOKIT

The CVR4KV is a new range of vandal resistant videokits. Developed from the popular VK4K videokit, the VR4KV offers a number of operating features and allows greater flexibility for installation. The face plate is manufactured from 2.5 mm stainless steel.

- Up to 4 outdoor stations (video or audio only) with 2 call push buttons calling 2 independent apartments;
- Up to 3 peripheral devices connected in parallel to each videophone (additional videophone, extension sounder, telephone handset etc.);
- Disable Friendly - Acoustic & Visual signalling of the system status (conversation in progress, busy and door open signalling);
- Recall (selective entrance recall on systems with 2 or more outdoor stations);
- Intercommunication between internal videophones;
- Local call tone which is different from the external push button call tone;
- Videophone incorporates "Privacy" On/Off facility (with either latched or timed activation of privacy);
- Programmable Call, conversation and door opening times;
- Dry relay contacts for electric lock;
- Power supply can be connected to the videophone or the outdoor station.

CVR4KV-1
