

3000 Series Videophones

The **3000 Series** videophones are manufactured in white ABS shockproof plastic. All videophones include 5 push buttons:

- "Door Open" - ;
- "Camera Recall" - (or "service" push button depending on videophone model);
- "service" push button - ;
- "service" push button - S1;
- "service" push button - S2;
- (or "privacy on-off" push button depending on videophone model -).

Certain models allow the service buttons to be configured as "camera recall" push buttons (so you can have more than one "camera recall" push button on systems with more than one video outdoor station) or as standard "service" push buttons connected to a common terminal. 3000 Series videophones have a 3.5" LCD TFT colour monitor.

All the models (except Art. 3481) are available with Memory Board option.

Art. VIDEOPHONES FOR COAX VIDEO TRADITIONAL SYSTEMS

- 3411** Videophone with 3.5" LCD TFT colour monitor, with "door open" and "camera recall" push buttons plus 3 service buttons and an "ON" LED. Controls: 3 levels of call tone volume (both main and local), contrast and brightness. Service push buttons ● ●, S1, S2 may be configured as "camera recall" push buttons.

Art. VIDEOPHONES FOR TRADITIONAL SYSTEMS USING COAX OR BALANCED VIDEO SIGNAL (NOT "4+1")

- 3412** Videophone with 3.5" LCD TFT colour monitor, with "door open" and "camera recall" push buttons plus 3 service buttons and an "ON" LED. Controls: 3 levels of call tone volume (both main and local), contrast and brightness. Service push buttons ● ●, S1, S2 may be configured as "camera recall" push buttons. The videophone can be set up to use coax or balanced video signal.

Art. VIDEOPHONES FOR VIDEO 4+1 SYSTEMS (SIMPLIFIED WIRING)

- 3431** Videophone using 3.5" LCD TFT colour monitor, with "door open" and "camera recall" push buttons plus 3 service buttons and an "ON" LED. Controls: 3 levels of call tone volume (both main and local), contrast and brightness. Service push buttons ● ●, S1, S2 may be configured as "camera recall".

Art. ADDITIONAL VIDEOPHONES FOR VK6N & SMVK

- 3451** Videophone using 3.5" LCD TFT colour monitor, with "door open" and "camera recall" push buttons plus 3 service buttons and an "ON" LED. Controls: 3 levels of call tone volume (both main and local), contrast and brightness.

Art. VIDEOPHONES FOR VIDEX "6 WIRE" VIDEOKITS (CVK4K, CVR4KV AND CVK8K RANGE)

- 3456** Videophone using 3.5" LCD TFT colour monitor, with "door open", "camera recall" and "privacy on-off" button plus two service push buttons, "door open" and "privacy on" LED's. The "door open" operates as the intercommunicating call button. Controls: 3 levels of call tone volume (both main and local), contrast and brightness.

Art. VIDEOPHONES FOR DIGITAL SYSTEMS WITH COAX AND NON COAX VIDEO

VX2000 DIGITAL SYSTEM ("6 WIRE" BUS VIDEO)

- 3497** Intelligent videophone, for coax video systems, with built-in landing unit and local intercommunication facility, using a 3.5" LCD TFT colour monitor, with "door open" push button plus 4 service buttons and an "ON" LED. Controls: 3 levels of call tone volume (both main and local), contrast and brightness.

VX2200 DIGITAL SYSTEM

- 3471** Videophone, for coax and non coax video systems, using a 3.5" LCD TFT colour monitor, with "door open" and "camera recall" push buttons plus 3 service buttons and an "ON" LED. Programmable melody and number of rings. Controls: 3 levels of call tone volume (both main and local), contrast and brightness.

- 3476** As Art. 3471 but with 2 service push buttons plus electronic "ON-OFF" timed privacy push button, "DOOR OPEN" and "PRIVACY ON" LED's.

VX2300 VIDEO DIGITAL SYSTEM ("2 WIRE" BUS VIDEO)

- 3481** Intelligent videophone using a 3.5" LCD TFT colour monitor, with "door open/intercommunicating call", "camera recall", "bus relay control" and "privacy on-off" push buttons plus 1 service button (dry contact) and "door open" plus "privacy on" LED's. Programmable privacy duration. Controls: 3 levels of call tone volume (both main and local), contrast and brightness.

Art. ACCESSORY 3000 SERIES Videophones

3931 Table top desk kit for 3000 Series videophones.
Dimensions: 182 X 76 X 190 mm.

3980 Wall mounting plate plus pcb connection board for 3000 Series videophones.
One required for each videophone.

VIDEOPHONE WITH MEMORY BOARD

Videx is always looking to enhance the security level of its systems. For this reason Videx have added optional video memory functions to its already extensive range of videophones. Videophones with memory board facility can store up to 128 video frames with relevant date and time stamp. The storage can be triggered automatically or manually: when in automatic mode (activated by pressing the relevant push button and indicated by a LED) the videophone stores a still frame on each external call (this enables the user, whilst away from home, to have a record of the visitors who have called all with a date and time stamp).

For manual storage the videophone stores a still frame by pressing the relevant push button. In addition to the normal 5 push buttons, these videophones include a further 6 small push buttons for controlling the memory board. They enable: viewing of stored images; deleting stored images or to alter memory board date and time. When the 127 memory locations are full, the next frame will shift the stored frames of one position toward the bottom of the memory deleting the frame in position 1 and will over write the frame in position 127 (First-In-First-Out).

To order colour videophones with memory board facility (for those models where it is available), suffix "/MV" to the product code.

The memory board facility is not available on Art. 3481.

3000 SERIES VIDEOPHONE FINISHES

In addition to standard white finish, 3000 Series Videophones are available in two additional finishes:

- Carbon Fibre Effect (add to the product code "/CA" when ordering).
- Silver Painting (add to the product code "/CR" when ordering).
