IP INTERCOM

3000
SERIES

Surface mount IP
intercom in white ABS
shockproof plastic.

The 3000 series intercom for Videx IP system is a surface mount handset equipped with 5 programmable buttons plus call tone volume control (3 levels).

Standard features (the features may vary according to the button's programming) include "open door", "intercommunicating call", "service", "privacy" and "door panel recall" that can be assigned to any button.

www.videx.it

Key features include:

- 10/100 Mbit Ethernet interface
- PoE and 12Vdc power supply
- 2 active low programmable inputs
- Manual adjustments: call tone volume
- Programmable direct buttons
- Melody selection
- Bootloader for ethernet upgrade
- SIP compliant

The 3000 series surface mount intercom is designed primarily for low and high-rise private developments and individual houses where an attractive and low cost functional intercom is desirable.

Accessories include a desk kit for an easy and practical functional alternative to a wall mount solution.
