

MGN350

Electromagnetic door holders mounted on a steel square base

Version : for application

Body in nickel plated steel with square fixing plate

Plate dimensions : 65 x 65 x 3 mm.

Body dimensions : 30 mm. x diam. 50

Operating voltage : 24 Vdc - Current : 70 mA

Holding force : > 55 Kg.

Spring for anti-residual magnetism on the electromagnet body
