

MGN360

Holding force 180Kg

17003A - for external use

Surface mounting

Body in painted aluminium with square fixing plate

Magnet with Resined coil

Plate dimensions : 90 x 90 x 6 mm.

Body dimensions : 37 mm. x diam. 80

Operating voltage : 24 Vdc

Current : 250 mA - Holding force : 180 Kg.

Spring for anti-residual magnetism on the counterplate surface

Supplied with fix counterplate on the aluminium base
