

IGEM4700

Stainless Steel Weatherproof Magnet

QUALITY LOCKING SOLUTIONS

IGEM4700F

Stainless Steel:

- Hi-quality built compact electromagnetic lock finished in strong AISI 304 stainless steel for standard door applications. The unit is supplied completely sealed to allow external applications.

Security, Quality And Design:

- The IGEM4700 series are unique electromagnetic locks providing higher security because of its quality, non-corrosive material and robustness.
- Security and design are provided because of its stainless steel brushed finish and top of the range metal material to guarantee no residual magnetism.

S specifications

- Holding force: ~3 000N / ~300 kgf / ~660 lbf
- Mounting: Surface
- IGEM4700F: Front fixing
- IGEM4700S: Side fixing
- Voltage: 12/24 VDC
- Current: 400/200 mA
- Locking monitoring: Yes
- Door Position monitoring: No
- Sizes: 220 x 47 x 31mm
- Weight: ~3kg

F features

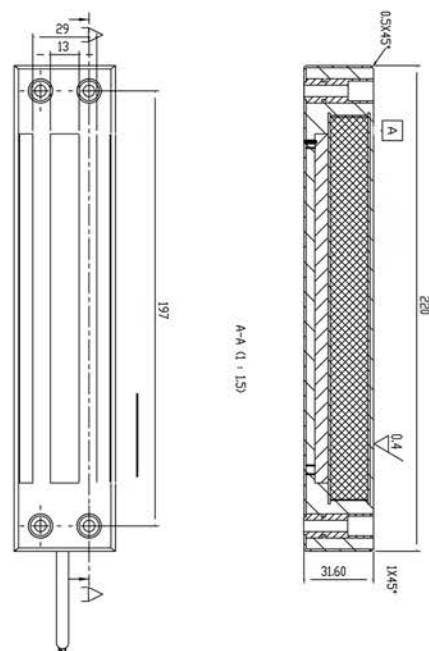

- Strong design
- Corrosion proof: Salt Spray Test (ASTM B 117-90)
- No residual magnetism – No spring push button on armature plate for magnet release
- Built-in MOV surge protection
- 10 years warranty
